

A320 FAN

BAVirtual

Issue Date: 24/05/2023
Effective: 28/05/2023
Number: 3/23
Incorporated: Version 2

Origin: James Coombe
Position: Chief Pilot BAV Euroflyer
Authority: Iain Sealey
Position: Operations Director

LIPQ Operating Restrictions Revised

FLR/LIRQ Flight crew restrictions have been introduced to mirror real world British Airways operations.

Florence is a category B airfield but has a restriction of Captain only for take-off and landing. Operating to and from Florence presents challenges in the form of severe performance limitations which are amplified when facing a tail wind departure from Runway 23.

In addition to the captain only restriction for this aerodrome, we recommend that this route should be operated by A320 Neo Aircraft (A20N).

Pilots are reminded of the importance of accurate and thorough performance calculations. Please note, it may be necessary to limit payload in order to operate from Florence.

OM-C Entry for LIRQ will be updated accordingly with the airfield briefing confirming the above restrictions.
