## **Posting Tutorials/Training Videos/Streams**

I know many of you enjoy streaming or creating videos of your flights and as a community we are of course more than happy to support this.

However, just as a polite request from the Training Department -- we would ask that that members please refrain from posting links to 'training' or 'tutorial' material, whether created by yourself or a third party, which has not been approved by the relevant fleet Training Standards team.

The Training teams work hard to try to create material that is consistent and in line with BAV Standard Operating Procedures for each airframe and linking to material which may be inaccurate, demonstrate incorrect techniques, or otherwise not in line with the fleet SOPs undercuts these efforts and is liable to result in confusion.

What we would ask instead is that if you are interested in creating a tutorial video yourself or you have spotted something which you feel would be of interest to other BAV members that you first contact the relevant fleet Training Standards Captains or Flight Training Manager so that the content can be reviewed and approved. We are of course always delighted to hear from anybody who has an interest in creating this sort of content and would be very happy to work with you!

The current Flight Training Manager contacts for each mainline/training fleet are as follows:

### **A320**

Drew Fletcher

### **A350**

Johnny Vaughan

### **A380**

Stephen Munson

### **B777/B787**

Alex Macdonald

### **Concorde**

Martin Tornberg/James Coombe

### **Embraer**

Ian Abel

### **C172**

John Pettit

**BE58**

Alex Beard

Thank you for your co-operation!

Simon Kelsey

Director of Training
