## 2 Introduction

This document states the 211 aerodromes approved for the operation of the Airbus A380 fleet at BAVirtual. Operation of the aircraft outside of these aerodromes is not authorised when flying for BAVirtual. This is an exhaustive list for normal operations, and includes alternates and diversion airfields.

**Operation of the Airbus A380 at some approved airfields in this document requires additional precautions to be taken. Guidance should be taken from the OM-C entry of the aerodrome you are operating to in order to maintain a safe operation of the aircraft.** I remind you that failure to do this could lead to a breach of the *BAVirtual Minimum Standards of Flying* and result in PIREP rejection.

VATUK have published their own A380 Operations Guide which can be found [here](#).

This list also applies to all event types, and to managers when considering A380 destinations/events. In extraordinary cases, prior approval to operate outside of this list must come in written form from the Director of Flight Operations post holder.

**Operation of the Airbus A380 at any airfield not approved in this document will result in PIREP rejection.**

## A Appendix A – List of BAVirtual A380 Approved Aerodromes

CITY	IATA	ICAO
Accra	ACC	DGAA
