Introduction of Operational Aide Memoire

Introduction

Effective 05 May 2025, BAV CityFlyer E190 crews are provided with an Operational Aide Memoire (Revision 1).

The Aide Memoire provides crews a flightdeck reference document for:

- Single Engine Taxi Procedures
- Take-Off Performance SOP (for use alongside the Vital Data Procedure detailed in [E190 FAN 1-2024](#))
- Stabiliser Trim Settings
- London City (EGLC / LCY) Company Minima
- Approach and Landing Speeds
- Low Visibility Procedures

Issue Date: 01/05/2025
Effective: 01/05/2025
Number: 1/2025
Incorporated: Revision 2

Origin: Chad Byworth
Position: Chief Pilot – CityFlyer
Authority: Lucas Hanman
Position: Director of Flight Operations

Revision of Normal Checklist

Summary

Minor revisions/typographical corrections have been made to the E190 Normal Checklist now released as Revision 2, effective 01 May 2025.

The only significant operational change is that the Cabin Report ... RECEIVED check of the Before Landing Checklist is now a silent 'read and do' check performed by the PM and does not require a challenge and response from the PF.

Crews should consult [E190 OMN 1-2024](#) for details on the use of the E190 Normal Checklist.
