

**LONDON LUTON (LTN/EGGW)**

Elevation 526ft

**CATEGORY A**

AV brief - not required

**GENERAL****Threats****Loss of Control**

- Due to sloping terrain in the approach areas to Rwy 08 and 26, the rate of radio altimeter reduction prior to the threshold will be approximately double the normal rate.
- This terrain may lead to unusual autoland behaviour.

**ARRIVAL**

- On approach to Rwy 08 the approach capability on the FMA may briefly downgrade from C3 Dual to C3 Single. This should be covered in the approach brief.
