

## DOHA Hamad Intl (DOH/OTHH)

Elevation 13ft

### CATEGORY B

AV brief – not required

### GENERAL

- Doha Hamad Intl is located 6 nm South East from Doha city centre.
- The airport is constructed on land reclaimed from the sea and is surrounded by the Persian Gulf to the North, East and South.
- The 'old' Doha Intl airport is approximately 2 nm west.
- 16L/34R is the longest Rwy in western Asia.

### Threats

#### CFIT

- No significant terrain; however there are numerous tall buildings to the West and North-west of the airfield. As a result, circling minima is higher than 1000ft aal, making this a Cat B airfield.

#### Runway Excursion

- Do not confuse runway in use with the old Doha Intl (OTBD) Rwy 15/33 which is approximately 2 nm West of Doha Hamad (OTHH).

#### Loss of Control

- Bird Hazard.

### ARRIVAL

#### Diversions Airports
